### SHARP ADVANCES SCORED

The Stock Market Develops General Strength After Opening.

Sugar Refining and the Local Truetions Rise Rapidly-The Anthracite Coal Shares in the Railway List Continue Strong-London Re ported as Somewhat Disturbed

NEW YORK, March 28 .- The Stock Market opened with the trading continuing in very large volume and with irregular price changes showing in the initial dealings. After the opening, however, the market developed general strength and there were a number of very sharp advances scored, particularly in Sugar Refining, Brooklyn Rapid Transit, Metropolitan and the industrials generally. In the railway list, the Anthracite Coal shares continued notably strong and active and there were heavy dealings at rising prices Northern Pacific and Union Pacific. The granger shares and the other standard issues were dealt in at moderate price changes. The dealings in the Baltimore and Ohio issues continued exceedingly active and resulted in irregular

The London market was reported somewhat disturbed on account of the fear of diplomatic tension, resulting from the re-lations between Russia and Germany, regarding railway extension in Asia Minor. Consols were one-fourth lower. The dealings here for foreign account upon the opening of business were again in exceedingly large volume, however, again conducted on both sides of the account. There was very little news over night bearing upon the general market or particular stocks, but it was again the case that the operations of the new franchise law seemed to be regarded with less perturbation.

A MARKET 1317131111	0.7	5.8	7491.3	13 a	Georgetown & Tennallytown

The characteristics of this morning's market were much like those of yesterday, heavy realizing, but a sufficient volume of buying to prevent anything more than tractional recessions in prices, a renewal of the bear attack on the securities that have had the largest advance, meeting with little success, activity and strength in the Tractions, the Steel and Iron securities, and the Coalers. Those friendly to this upward movement find rothing disappointing in the tempo.ary halt, but consider it rather an excellent thing for the market. As soon as the small people refuse to take their profits it will be time for careful speculators to think about deserting the advance. As long as every spurt of a few points leads to realizing the boom is safe. The immediate outlook is for higher prices before the end of the week. Whether they would be witnessed this afternoon or not careful observers were unwilling to predict this morning. It was the other than the control of the control o thought that the realizing sales might latuntil Friday possibly. Money is easy. London continues bullish on Americans, though its purchases this morning were not so large as heretofore. It is probable that the market will have even greater buoyancy after April 1, the date on which many of the settlements are made.

The tractions were again conspicuo Brooklyn Rapid the morning market. Brooklyn Rapid
Transit especially was buoyant, with an
advance to 73 and above, and Metropolitan
made a good gain early in the day. Third
Avenue was quiet, but at a higher figure
than yesterday's best. The prospect of
an early announcement of the franchise
tax assessments does not prevent the
shorts from covering these stocks. Consolidated Gas was also buoyant this morning. morning market.

Federal Steel, common stock, was again strong, and the special feature of the steel and iron group. There was a statement, purporting to come from an official source, that the stock is to be put on a regular dividend basis in a few days. The rate, it is said, may be 5 or 6 or 8 per cent annually but it likely to be more than the number of the steel and the started of the started nually, but it likely to be more than the 5 per cent paid for last year. The earnings of the company seem to warrant the 8 per cent rate. Colorado Fuel and Iron was also strong, above 50, gossip regard-ing the stock being bullish.

There was heavy realizing in Reading, first preferred, at 65 this morning, but the buying was excellent and it seemed probable that there would be little if any recession from that level. The immense buying of the stock for London, and the very positive talk of a 4 per cent dividend rate in the immediate future are the inducements causing the buying. It is said that the second preferred, should be considered particularly attractive at its presdered particularly attractive at its present level. There is being earned a full dividend on the stock and something over for the common, at the present time.

The full February statement of the Atichicon is as follows: Gross earnings, \$3.517,989; increase, \$558,250: Net earnings, \$1.345,004; increase, \$410,970. Taxes Magruder has been appointed Chief Chemist of the Department of Agriculture. He will begin his duties about April 1. Dr. Magruder for the past five years has held and rentals, \$155,392; increase, \$9,974. Increase from operation, \$1,189,611; increase, Mississippi.

\$400,996. From July 1 to February 28; Gross earnings, \$39,724,853; increase, \$3,449,159. Net earnings, \$12,154,482; increase, \$3,974,404. Taxes and rentals, \$1,233,155; increase, \$99,817. Increase from operation, \$19,921,327; increase, \$3,874,537. The Atchison securities sold heavily this morning, but held their own handsomely and looked quite equal to further good advances in the near future. This company is earning as large a surplus over its dividend payments as almost any other in the counayments as almost any other in the coun-

Northern Pacific has been one of the steadless steeks on the list for a gaad many days. It besitates on some days, but it never goes back. The buying of the stock is said to be exceptionally good. A dividend of 4 per cent is promised.

Sugar boomed up to 110 this morning, the best price for several weeks. It was bought heavily and the bears seemed to be dis-couraged, for the time being at least. As sual there was the story of an early settlement of the war.

Rusic likes Manager Ewing, and would not be averse to playing under him, but he has a preference for Brush, because the latter has been his friend in his controversion with Providers to Provide the provider to the provi versies with President Freedman, and brought about the settlement two years ago and that of the past few days.

NEW YORK WANTS O'BRIEN.

The Pittsburg Player Will Remain at Home This Season.

NEW YORK, March 28.—There is one player the New Yorks cannot get without paying for him, and that is Tom O'Brien, of the Pittsburgs. Last year, though under reserve to Pittsburg. O'Brien was "loaned" to Freedman, and played through the season. Not satisfied with receiving Catcher Bowerman for nothing. Freedman made a formal demand for O'Brien. Directus, referred the marties to Clarke. Dreyfuss referred the matter to Clarke, and the latter has just made this final

statement:
"I will not allow O'Brien to go. The more I see him play ball the better I like him. He can hold his own in either the outfield or infield, minds his own business, and is just the man for the Pittsburg club. We can find as much use for him as New

LOUISVILLE, March 28.-There is now ittle doubt that the great Jean Bereaud has gone wrong. A rumor to this effect has been persistent for some time, but has been stoutly denied by Trainer Wim-mer and the other employes at the Whit-ney stables. Last Sunday Bereaud worked out a slow mile and pulled up very lame.

The trouble was then said to be due to bad shoeing and it was claimed that he would be all right in a day or two. This morning he was out again.

After working out a mile in 1:52 he again pulled up very lame and in worse condition than before. The trouble is it his right foreleg. The trainer, Wimmer makes light of the injury and says a few workouts will bring him around. It is also rumored that Killashandra, another of Mr. Whitney's best horses, has gone wrong.
